

KrishiGo Policy Addendum

Supplement to Product Requirements Document

Version: 1.0

Last Updated: January 28, 2026

Status: Finalized for MVP Development

1. Booking & Commitment Policy

1.1 Booking Flow

1. **Farmer submits booking request** (not instant confirmation)

- Selects equipment, date, time, land size
- Views calculated price
- Submits request

2. **Owner receives notification**

- Has 6 hours to accept or reject
- After 6 hours, request auto-expires

3. **Booking confirmation**

- Once owner accepts: booking is confirmed
- Both parties bound to commitment
- SMS confirmation sent to both

1.2 Advance Payment Policy

No Advance Required (Default)

Farmers in good standing book without advance payment:

- First-time farmers (welcome policy)
- Farmers with rating ≥ 4.0
- Farmers with < 2 cancellations in last 30 days
- Payment collected after service completion

Advance Required (Risk Mitigation)

Platform triggers advance requirement for:

Scenario	Advance Amount	Reason
2+ cancellations in last 30 days	₹300	Pattern of unreliability
Farmer rating <3.5	₹300	Low trust score
Booking value >₹5,000	₹500	High-value protection
Peak season bookings	₹200	High demand period

Advance Collection Process:

- Owner collects advance in cash after booking confirmation
- Owner returns advance when service starts (before work begins)
- If farmer no-shows: owner keeps advance + reports to platform
- Platform deducts advance from total payment owed

Platform Tracking:

- All advance collections logged
- Farmer "trust score" adjusted based on history
- 3+ advance forfeitures = account review/suspension

2. Cancellation & Refund Policy

2.1 Farmer Cancellation

Timing	Penalty	Impact
>24 hours before service	No penalty	Full refund of any advance
12-24 hours before	25% booking value penalty	Rating unaffected if rare
6-12 hours before	50% booking value penalty	Rating drops by 0.2
<6 hours before	75% booking value penalty	Rating drops by 0.5
No-show (no cancellation)	100% penalty + forfeit advance	Rating drops by 1.0

Additional Rules:

- Max 2 cancellations allowed per month
- 3rd cancellation triggers mandatory advance for next 5 bookings
- Penalties recorded even if no advance was collected (affects future bookings)

2.2 Owner Cancellation

Timing	Penalty	Impact
>24 hours before service	No penalty	Farmer notified, can rebook
<24 hours before	₹500 penalty deducted from next payout	Rating drops by 0.3
<6 hours before	₹1,000 penalty	Rating drops by 0.5 + warning
No-show (doesn't arrive)	₹2,000 penalty	Rating drops by 1.0 + suspension risk

Owner Protection:

- Force majeure (equipment breakdown, medical emergency): must inform within 2 hours, reduced penalty
- Can cancel up to 2 bookings/month without penalty if >24 hours notice

2.3 Weather Cancellation

- Either party can cancel due to rain/weather
- No penalty if cancelled on service day
- Must be mutual agreement or admin-verified weather issue

3. Pricing Structure & Control

3.1 Price Setting Mechanism

Admin Defines Ranges:

- Set by equipment type + district
- Reviewed quarterly based on market rates

Example Price Ranges:

Maharashtra - Nagpur District:

Equipment Type	Min	Max
Tractor (Plowing)	₹500/acre	₹800/acre
Tractor (Rotavator)	₹400/acre	₹600/acre
Harvester (Wheat)	₹1,000/acre	₹1,500/acre
Harvester (Paddy)	₹1,200/acre	₹1,800/acre
Seed Drill	₹300/acre	₹500/acre
Sprayer	₹200/acre	₹350/acre

Owner Sets Final Price:

- Must be within admin-defined range
- Can adjust seasonally (but not for confirmed bookings)
- Price changes apply only to new bookings

3.2 Price Components

What's Included in Price:

- Equipment usage
- Operator wages
- Fuel (for specified hours/acres)
- Transportation (within owner's service radius)
- Basic maintenance/wear

What's NOT Included:

- Extra fuel if job exceeds estimated time (farmer pays separately)
- Accommodation if multi-day job
- Repairs if farmer misuse causes damage

3.3 Price Display to Users

Farmer Sees:

Total Price: ₹3,200
(for 5 acres tractor plowing)

Owner Sees:

Booking Value: ₹3,200
KrishiGo Fee (10%): -₹320
Your Earnings: ₹2,880

3.4 Commission Structure

Booking Value	Commission Rate
<₹5,000	10%
≥₹5,000	15%

Commission Deduction:

- Deducted from owner's payout
- Calculated on total booking value (excluding penalties)
- Hidden from farmer interface

4. Service Area & Location Policy

4.1 Owner Service Radius

- Each owner defines service radius: 5-20 km from base location
- Must be set during equipment listing
- Can update monthly (not mid-booking)

4.2 Location Matching

Search Logic:

1. Farmer enters village/pincode
2. Platform shows equipment where:
 - Farmer location falls within owner's service radius
 - Equipment is available for selected date
3. Results sorted by: distance → rating → price

4.3 Transportation Cost

- **Included in base price** (no separate transport charges)
- Owner factors travel into their per-acre/hour rate
- If farmer location is at edge of service radius, owner can quote higher (within price range)

4.4 Out-of-Area Requests

- Farmer can request equipment outside owner's radius
 - Owner can accept with custom pricing (requires admin approval if >20% above max range)
 - Not available in Phase 1 MVP
-

5. Operator Management

5.1 Operator Responsibility Model

- **Owner is fully accountable** for operator performance
- Operator is owner's representative on the field
- Any operator issues → owner's rating affected

5.2 Operator Information (Optional)

Owner can optionally provide:

- Operator name
- Operator phone number
- Operator photo

Benefits of providing operator info:

- Farmer can contact directly on service day
- Builds farmer confidence
- Better for owner reputation

Not required in Phase 1 - owner can send any qualified operator

5.3 Operator Conduct Standards

If farmer reports operator misconduct:

- Rude behavior → owner gets warning
- Damaged crops due to negligence → owner liable for compensation
- Safety violations → owner rating drops + possible suspension

5.4 Operator Replacement

- If operator doesn't show, owner must arrange replacement within 2 hours
 - Owner must inform farmer immediately
 - Failure to replace → treated as owner no-show (₹2,000 penalty)
-

6. Dispute Resolution Framework

6.1 Dispute Categories

Type A: Equipment/Service Issues

- Equipment breakdown mid-job
- Poor quality work
- Incomplete work
- Operator negligence

Type B: Pricing Disputes

- Owner charges more than agreed price
- Hidden charges added
- Price shown vs paid mismatch

Type C: Behavioral Issues

- Operator misconduct
- Farmer refuses to pay after completion
- Verbal abuse by either party

Type D: Force Majeure

- Weather disruption
- Medical emergency
- Equipment accident

- Government restrictions

6.2 Dispute Filing Process

Farmer or Owner can file dispute:

1. Click "Report Issue" on booking page
2. Select dispute type
3. Upload evidence (photos, videos, messages)
4. Submit within 24 hours of scheduled service time

Late Filing:

- Disputes filed >24 hours after service: reviewed case-by-case
- Valid reasons for delay accepted (hospitalization, network issues)

6.3 Admin Review Process

Timeline:

- Admin reviews within 48 hours
- Complex cases: 72 hours
- Critical cases (safety): 24 hours

Investigation Steps:

1. Review booking details & payment records
2. Check photos/videos submitted
3. Contact both parties for statements
4. Check user history (ratings, past disputes)
5. Make decision based on evidence

Possible Outcomes:

Decision	Action
Farmer fully right	100% refund + owner penalty
Farmer partially right	50% refund + owner warning
Split responsibility	25% refund, no penalties
Owner fully right	No refund, farmer warning
Insufficient evidence	No action, case closed

6.4 Resolution Actions

For Farmers:

- Full refund (credited to account or cash return)
- Partial refund (50%, 25%)
- Rating restored if unfairly given
- Apology from platform if wronged

For Owners:

- Penalty deducted from next payout (₹500-₹2,000)
- Rating reduction (-0.3 to -1.0)
- Warning (3 warnings = suspension)
- Equipment marked inactive if serious safety issue
- Account suspension (7-30 days)
- Permanent ban for severe violations

For Both:

- SMS notification of decision
- Explanation of action taken
- Opportunity to appeal (within 7 days)

6.5 Appeal Process

- Either party can appeal within 7 days
- Submit additional evidence

- Senior admin reviews
 - Final decision within 5 days
 - No further appeals after this
-

7. Equipment Verification & Quality Standards

7.1 Initial Equipment Approval Checklist

Before equipment goes live:

✓ Documentation Required:

- Equipment photos (minimum 3 clear angles)
- RC (Registration Certificate) copy
- Insurance document (valid, not expired)
- Owner's driving license (if self-operated)
- Ownership proof (bill/invoice if <5 years old)

✓ Equipment Criteria:

- Age <15 years (unless excellent condition with proof)
- All major parts functional (visible in photos)
- No visible major damage/rust
- Matches claimed specifications (HP, capacity, etc.)

✓ Owner Verification:

- Mobile number verified via OTP
- Aadhaar/PAN uploaded
- Bank account verified (for payouts)
- Service area defined

Approval Timeline:

- Standard verification: 24-48 hours
- Urgent requests: 12 hours (₹200 fee)

7.2 Equipment Categories & Specs

Platform supports:

- Tractors (20-75 HP)
- Harvesters (self-propelled, tractor-mounted)
- Rotavators
- Seed Drills
- Planters
- Sprayers
- Balers
- Other (admin-approved)

Required Info for Each Listing:

- Equipment type & model
- Year of manufacture
- Capacity (HP, width, tank size, etc.)
- Attachments included
- Service radius
- Pricing (per acre or per hour)
- Availability calendar

7.3 Ongoing Quality Monitoring

Automatic Quality Flags:

- Rating drops below 3.5 → admin review
- 3+ disputes in 30 days → equipment suspended pending review
- 2+ no-shows → owner account warning
- Insurance expiry detected → equipment auto-deactivated

Owner Responsibilities:

- Update availability weekly
- Respond to bookings within 6 hours
- Maintain equipment in working condition
- Renew insurance annually
- Update photos if equipment condition changes

7.4 Annual Re-verification

Every 12 months, owner must:

- Upload fresh equipment photos
- Submit renewed insurance
- Confirm service area still accurate
- Update pricing if needed

Failure to re-verify:

- 30 days before expiry: reminder sent
- 15 days before expiry: equipment marked "pending renewal"
- On expiry: equipment deactivated
- Can reactivate immediately upon submission

7.5 Rating-Based Visibility**Equipment Ranking Algorithm:**

$$\text{Visibility Score} = (\text{Rating} \times 40\%) + (\text{Completion Rate} \times 30\%) + (\text{Response Time} \times 20\%) + (\text{Distance} \times 10\%)$$

Impact on Farmers:

- Higher scored equipment shows first in search
 - Equipment <3.5 rating shows with warning badge
 - Equipment <3.0 rating hidden from search (unless no alternatives)
-

8. Payment Collection & Payout**8.1 Phase 1: Cash on Completion****Payment Flow:**

1. Service completes
2. Owner marks job "complete" in app
3. Farmer confirms completion in app
4. Farmer pays owner in cash
5. Owner confirms payment received
6. Platform records transaction

7. Commission deducted from owner's next payout

If Farmer Refuses to Pay:

- Owner reports non-payment immediately
- Farmer has 24 hours to dispute or pay
- If no response: farmer account suspended
- Admin mediates if dispute filed

Payout to Owner:

- Accumulated weekly (every Monday)
- Transferred to owner's bank account
- Minus: KrishiGo commission + any penalties
- Payout statement sent via SMS

8.2 Phase 2: Online Payments (Future)

When implemented:

- Farmer pays via UPI/card at booking
 - Amount held by platform (escrow)
 - Released to owner after service confirmation
 - Auto-refunds if disputes resolved in farmer's favor
-

9. Trust & Safety Measures

9.1 User Trust Score (Internal)

Factors affecting trust score:

For Farmers:

- Booking completion rate (60% weight)
- Cancellation history (20% weight)
- Payment promptness (10% weight)
- Ratings given to owners (10% weight)

For Owners:

- Service completion rate (50% weight)
- Response time to bookings (20% weight)
- Dispute resolution history (20% weight)
- Equipment quality (ratings) (10% weight)

Trust Score Impact:

- High trust (>85): No advance, priority support
- Medium trust (60-85): Normal treatment
- Low trust (<60): Advance required, limited bookings
- Very low (<40): Account suspended

9.2 Rating System

Farmers rate owners on:

- Equipment quality (1-5 stars)
- Operator behavior (1-5 stars)
- Timeliness (1-5 stars)
- Overall satisfaction (1-5 stars)

Owners rate farmers on:

- Payment promptness (1-5 stars)
- Communication (1-5 stars)
- Field readiness (1-5 stars)
- Overall experience (1-5 stars)

Rating Rules:

- Both must rate within 48 hours of service
- Cannot change rating after 7 days
- Minimum 10 characters required for written review
- Abusive reviews auto-flagged for admin review

9.3 Fraud Prevention

Red Flags for Admin Review:

- Same phone/bank used for multiple accounts

- New user with >5 bookings in first week
- Pattern of booking + cancelling with advance
- Owner always cancels at last minute
- Fake positive reviews (same device/IP)
- Price manipulation attempts

Actions:

- Flagged accounts get manual verification call
 - Suspicious patterns → temporary suspension
 - Confirmed fraud → permanent ban + legal action
-

10. Communication Protocols

10.1 SMS Notifications (Phase 1)

Farmers receive SMS for:

- Booking request submitted
- Booking accepted by owner
- Booking rejected by owner
- Owner en route (day of service)
- Service completed (confirm payment)
- Rating reminder
- Dispute updates

Owners receive SMS for:

- New booking request
- Booking confirmed
- Booking cancelled by farmer
- Payment confirmation
- Rating reminder
- Payout processed
- Equipment verification status

10.2 WhatsApp Integration (Phase 2)

- Rich notifications with images
- Direct messaging between farmer & owner (day of service only)
- Booking confirmation with PDF receipt

10.3 In-App Communication

- Chat disabled in Phase 1 (to reduce complexity)
 - Phone numbers visible after booking confirmed
 - Direct calling between parties encouraged
-

11. Seasonal & Peak Demand Management

11.1 Peak Seasons Definition

By Region:

- Kharif season: June-October (monsoon planting/harvest)
- Rabi season: November-March (winter crop harvest)
- Varies by district/crop type

During Peak Season:

- All bookings require ₹200 advance (even good standing users)
- Booking window shortened (owner must respond in 3 hours)
- Admin monitoring increased
- Pricing remains within defined ranges (no surge pricing in Phase 1)

11.2 Off-Season Strategy

- Encourage owners to lower prices
 - Promotional campaigns for farmers
 - Equipment maintenance reminders
 - Owner retention programs
-

12. Admin Panel Capabilities

12.1 Dashboard Overview

- Active bookings (live map)
- Pending verifications
- Open disputes
- Daily/weekly revenue
- User growth metrics
- Equipment utilization rates

12.2 User Management

- Approve/reject owner registrations
- Verify equipment listings
- Suspend/ban accounts
- View user trust scores
- Manual trust score adjustment (with reason logging)

12.3 Pricing Management

- Set/update price ranges by district + equipment
- View pricing analytics (avg, min, max)
- Override prices for special cases (requires senior approval)
- Commission rate adjustment

12.4 Dispute Resolution

- View all open disputes
- Assign disputes to admin team
- Upload internal notes
- Make rulings
- Process refunds/penalties
- Track appeal requests

12.5 Analytics & Reports

- Booking trends (daily/weekly/monthly)

- Revenue reports
 - Equipment popularity
 - User acquisition sources
 - Cancellation patterns
 - Geographic heatmaps
-

13. Compliance & Legal

13.1 Terms of Service

- Users agree to binding arbitration for disputes
- KrishiGo is marketplace, not equipment provider
- Platform not liable for accidents/damages
- User consent for data collection & SMS

13.2 Data Privacy

- User data stored securely (encrypted)
- Phone numbers not shared publicly
- Location data used only for matching
- Users can request data deletion

13.3 Insurance Requirements

- Equipment owners must maintain valid insurance
- Platform verifies insurance annually
- Expired insurance → equipment deactivated
- Platform does not provide insurance coverage

13.4 Tax Compliance

- Owners responsible for own tax filings
 - Platform provides payout statements
 - GST compliance (if owner turnover > ₹20L/year)
 - TDS deducted as per government rules (if applicable)
-

14. Success Metrics & KPIs (Expanded)

14.1 User Metrics

- **Farmer Acquisition:** New farmers/week
- **Owner Acquisition:** New equipment listings/week
- **Retention Rate:** % users booking again within 30 days
- **Churn Rate:** % users inactive >60 days

14.2 Booking Metrics

- **Booking Request Rate:** Requests/day
- **Acceptance Rate:** % requests accepted by owners
- **Completion Rate:** % bookings successfully completed
- **Cancellation Rate:** % bookings cancelled (by whom)
- **Average Booking Value:** ₹/booking

14.3 Quality Metrics

- **Average Rating:** Overall platform rating
- **Dispute Rate:** % bookings with disputes
- **Resolution Time:** Avg hours to resolve dispute
- **No-show Rate:** % farmer & owner no-shows

14.4 Financial Metrics

- **GMV (Gross Merchandise Value):** Total booking value
- **Net Revenue:** Commission earned
- **Average Commission:** ₹/booking
- **Payout Accuracy:** % payouts processed correctly

14.5 Operational Metrics

- **Verification Time:** Avg hours to verify equipment
- **Response Time:** Avg hours for owner to respond
- **Support Tickets:** Number/week
- **Equipment Utilization:** Avg bookings/equipment/month

14.6 Phase 1 Pilot Targets

3-Month Pilot Goals:

- 50 active farmers
 - 20 equipment owners
 - 100 completed bookings
 - 4.0 average rating
 - <10% cancellation rate
 - <5% dispute rate
 - ₹2L GMV
-

15. Implementation Priority

Phase 1A: Core MVP (Weeks 1-4)

- ✓ User authentication (OTP)
- ✓ Equipment listing & search
- ✓ Booking request flow
- ✓ Basic admin panel (verification)
- ✓ Payment recording (manual)

Phase 1B: Trust & Safety (Weeks 5-6)

- ✓ Rating system
- ✓ Cancellation handling
- ✓ Dispute filing
- ✓ Trust score calculation
- ✓ Advance payment logic

Phase 1C: Polish & Launch (Weeks 7-8)

- ✓ SMS notifications
- ✓ Analytics dashboard
- ✓ Price range enforcement
- ✓ Service radius matching
- ✓ User testing & bug fixes

Phase 2: Enhancements (Month 3-6)

- Online payments (UPI)
- WhatsApp integration

- Operator profiles
 - Advanced search filters
 - Automated dispute resolution
 - Multi-language support
-

Document Control

Approved By: [Founder/Product Manager]

Review Cycle: Monthly during pilot, quarterly after scale

Next Review: April 28, 2026

Change Log:

- v1.0 (Jan 28, 2026): Initial policy framework created
-

END OF POLICY ADDENDUM
